To Whom It May Concern:

Global Television has agreed in principle to support Daljit Dj Parmar and the proposed "A Community That Cares" campaign. The agreement encompasses a commitment to broadcast the Anti-Gangs and Drugs public service announcements; on condition the creative meets with the broadcast standards established by the station.

Global Television will receive exclusive first rights to broadcast the creative and exclusive editorial rights to the campaign for a period of one month after delivery. After the first month the broadcast and editorial rights will be released and open to all broadcasters to air.

In December 2004 we supported Daljit Dj Parmar and the "A Community That Cares" campaign by broadcasting 2 x 30 second Anti-Drinking and Driving public service messages. We were very impressed with the content, suitability, and quality of the creative presented to us and we look forward to dealing with Mr. Parmar in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "John Ridley". The signature is stylized with loops and a long horizontal stroke at the end.

John Ridley
